

DRIVE TO NAMAHAJE MUSEUM/ MT SHINZAN & OGA CAMPGROUNDS & GAO AQUARIUM

Namahage Museum/Mansion is BEFORE crossing this bridge and a left turn at the Namahage monolith (see pics above and to the left) if headed in direction of the Oga coastline. There is another Tori/ gate over the road (see pic below) and it's just a minute or so before reaching the parking lot for the Namahage Museum/Mansion. Mt. Shinzan 10000 Buddhas of Shinzan Shrine is further past the Namahage Museum.

There are few signs of gas stations on this mountain drive. Be sure to fuel up before this drive. The road signs are far apart in the country and some turns are easy to miss!

The GAO aquarium is located on the coast of the Oga Peninsula about 11KM from the road to the Namahage Mansion/Museum. Cross the Bridge (see above bridge) on the Namahage Line/ なまはげ Namahage ライン rain (road) headed towards the Oga hotspots. You'll pass the Oga Campground and see more GAO signs. If you drive too far and see Oga Hotspots signs you may be in the direction of the Nyudozaki Cape. It's a nice drive to the Cape where there is a seaside shopping area. Then follow signs back to GAO.

Obviously I was out on a rainy/ snowy day. I tried.
